

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office..... DEC 11 1992

Returned to applicant for correction.....

Corrected application filed.....

Map filed..... DEC 11 1992

The applicant..... Lake at Las Vegas Joint Venture

2625 N. Green Valley Parkway, Suite 250, Henderson

Street and No. or P.O. Box No.

City or Town

Nevada 89014, hereby make.... application for permission to appropriate the public

State and Zip Code No.

waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a

copartnership or association, give names of members.)..... TransNeva Limited Partnership, Its Managing

General Partner Transcontinental Properties, Inc., Its General Partner

1. The source of the proposed appropriation is..... Incidental Las Vegas Wash storm flows in excess
Name of stream, lake, spring, underground or other source
 of existing rights in the Las Vegas Wash

2. The amount of water applied for is..... Water in excess of existing rights (638 CFS, Permit
 #29814) up to 4,000 Acre-feet.....second-feet
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet..... 4,000 AF (10,000 AF storage capacity)

3. The water to be used for..... Quasi-municipal & Domestic
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated..... N/A

(b) Stockwater, state number and kinds of animals to be watered..... N/A

(c) Other use (describe fully under No. 12. "Remarks")..... N/A

(d) Power:

(1) Horsepower developed..... N/A

(2) Point of return of water to stream..... N/A

5. The water is to be diverted from its source at the following point..... at Lake Las Vegas Resort, SE¼ of SW¼
Describe as being within a 40-acre subdivision of public
 of Section 22, T21S, R63E, MDM, at a point from which the SW corner of Section
 survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.
 22 is S 62° 48' 21" W a distance of 1652.13'.

6. Place of use..... Lake Las Vegas Resort, portions of Sections 14, 15, 22 & 23, Township
Describe by legal subdivision. If on unsurveyed land, it should be so stated.
 21 South, Range 63 East, Mt. Diablo Meridian

7. Use will begin about..... January 1..... and end about..... December 31....., of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and
 specifications of your diversion or storage works.)..... Existing twin 84" concrete pipe bypass
State manner in which water is to be diverted, i.e. diversion structure, ditches and
 system and concrete weir together with 190 foot high earthen dam
flumes, drilled well with pump and motor, etc.

9. Estimated cost of works \$30,000,000
10. Estimated time required to construct works Complete, in place
If well completed, describe works.
11. Estimated time required to complete the application of water to beneficial use Water was put to beneficial use in 1992. Water will be put to beneficial use as it is available.
12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use:
There is no intent to require upstream dischargers to discharge storm water to meet this permit application. Taking of from 300 to 4,000 Acre-feet per year of excess storm water is incidental to the operation of the dam, bypass system, and the Lake of Lake Las Vegas. It is anticipated that after the lake is filled, the lake level will vary from 1400' to 1404' ASL during the course of one year.

APPROVAL _____ OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit allows 5750 acre-feet from flood flows for initial filling of the Reservoir and is issued subject to all existing rights on the source. Annual Storage of flood flows for quasi-municipal consumptive use shall be limited to 2030 acre-feet or the amount that spills into the Reservoir over the inlet weir in excess of 638 cfs, whichever is less.

The State retains the right to regulate the use of water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

A report shall be submitted to the State Engineer within 30 days from the end of the calendar year which will include all water diverted into the reservoir, the dates and amount of each event, the flow of water in the wash corresponding to the aforementioned dates and the amount pumped from the reservoir and put to beneficial use.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 2030 ~~cubic feet per second~~ acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before May 23, 1995

Proof of completion of work shall be filed before June 23, 1995

Application of water to beneficial use shall be filed on or before May 23, 1999

Proof of the application of water to beneficial use shall be filed on or before June 23, 1999

Map in support of proof of beneficial use shall be filed on or before N/A

Completion of work filed SEP 06 1994

Proof of beneficial use filed FEB 26 1996

Cultural map filed _____

Certificate No. 14303 Issued 04-02-96
